

Important notice for all CMCM members who have subscribed to the DENTA & OPTIPLUS optional coverage!

The CMCM contribution towards the costs of refractive eye surgery is €1,000/eye.

In order to avoid members having to pay the entire medical intervention up-front, CMCM has negotiated a third-party payment system with certain ophthalmology practices. To benefit from this arrangement, it is essential to inform the concerned practice of your CMCM membership before the intervention.

Currently, the third-party payment is available at the following practices:

- Cabinet de Chirurgie Réfractive Findel (www.augenlaser.lu)
- Centre Ophtalmologique Monterey (www.centremonterey.lu)
- Centre Ophtalmologique Place de Paris (www.copp.lu)
- Smile Eyes in Trier (www.smileeyes.de/trier)
- Augenlaserklinik Saar (<http://www.augenlaserklinik-saar.de/>)

This list will be expanded as negotiations continue.

MIR SINN DO. FIR JIDDEREEN.
